
TTT Championships – Privacy Policy

Last updated: 17th July 2025

1. DATA COLLECTION:

We collect only the essential data required to make the game function smoothly.

- Nearly all game progress — including avatars, XP, coins, and ranks — is stored directly on your device using secure browser-based localStorage. We do not have access to this data and do not store it on any server.
 - As of July 2025, we do not collect or store sensitive personal information.
 - Once our online multiplayer features launch (scheduled for September 1st, 2025), we will use Firebase to temporarily store limited information like your username and email address — strictly for match syncing and leaderboard purposes.
 - Account creation and login is handled securely on your device. We do not collect or monitor any localStorage data.
-

2. ACCOUNT DELETION:

You have the right to delete your account and any data stored in our systems at any time without questions.

- If you would like to remove your firebase data (which will start to be stored on the 1st of September 2025), you can contact us via Discord or email and we will delete your account information
 - Most gameplay data is stored locally on your device. To erase it, you will need to clear your browser's cache and local data manually as we don't have access to it.
-

3. IN-GAME PURCHASES:

All in-game purchases are handled securely through Stripe, a trusted global payment processor:

- We do not collect or store your card details — all transactions are encrypted and managed by Stripe.
 - Your game progress and purchases are saved locally on your device using browser storage (localStorage).
 - This means:
 - Clearing your browser data or switching devices may permanently erase your purchases and progress
 - Each account is tied to your current device for security and performance reasons
 - To ensure purchases are saved correctly, make sure localStorage is enabled and not blocked in your browser settings.
 - We are not liable for data loss due to cache clearing or switching devices, but if issues arise, you can contact us with proof of purchase (e.g. a Stripe receipt) and we'll do our best to help.
-

4. DATA LOSS AND LIMITATIONS:

We strive to provide a stable and reliable experience, but as with all software, occasional technical issues may occur.

- Because your game progress (XP, coins, avatars, etc.) is stored locally on your device, clearing your browser data or using a different device may result in permanent loss of your account and purchases. You can open a support ticket on our discord server. If you provide proof of purchase (like a stripe receipt), we'll do our best to verify and restore your data
 - We recommend avoiding cache clearing unless necessary and suggest using one primary device for gameplay.
 - In rare cases of technical failure on our side, we will review issues on a case-by-case basis. If you've made a purchase and can provide a valid Stripe receipt, we will make every reasonable effort to restore your items.
-

5. YOUR RIGHTS AND CONTACT:

You have control over your data and experience:

- You can request data deletion, ask questions, or raise concerns via our official discord server or contact email istvantoht2801@gmail.com
- We respect your privacy and do not share or sell your information
- By using TTT Championships, you agree to the terms of this privacy policy

Thank your for playing TTT Championships!
